PROFESSIONAL EXPERIENCE

Cohen & Steers

New York, NY

Software Developer Summer Associate

Jun 2025 - Aug 2025

- Developed and deployed an automated employee offboarding system that saves HR and Security 30 minutes per employee by building an Azure Cloud Logic App with SQL and Outlook integrations
- Contributed to the completion of 17 IT software projects by translating business goals into technical requirements, facilitating developer-stakeholder meetings, and managing documentation, such as meeting notes and timelines, for a 60+ project portfolio
- Collaborated on an intern research team to identify new strategies for positioning real assets to Gen Z/Millennials, culminating in a presentation and AI chatbot prototype for the Executive Committee

Women Make Movies

New York, NY

UI/UX Intern

Jan 2025 - Jun 2025

- Improved website accessibility by 25% by analyzing accessibility data to identify usability gaps, redesigning key pages, and replacing non-compliant UI elements

Ernst & Young

São Paulo, SP

Technology Consulting - Data Analytics, Summer Associate

May 2024 - Sep 2024

- Participated in predicting client productivity and assessing operational goals by running R simulations based on large-scale databases, which involved pre-processing and cleaning data using Python and SQL
- Developed and iterated on Power BI dashboards by translating complex data and presenting insights biweekly to 17 client field worker groups

PROJECTS

Hand Gesture Classifier for Sign Language

- Built and trained a Convolutional Neural Network (TensorFlow/Keras, Python) to classify sign language gestures, achieving over 90% test accuracy

[Laughing Detector](#)

- Designed and built a user-centric website (Python, HTML, CSS) that analyzes performance audio to provide comedians with objective, actionable data on audience engagement and joke effectiveness

ACADEMIC EXPERIENCE

[Design Tools Lab](#)

New York, NY

Research Assistant

May 2025 - Present

- Defined six core design principles for a social journaling application based on academic research and user interviews
- Prototyped a social journaling application in React, following the design principles, and conducted user testing and wrote academic paper

Computer Science Help Room

New York, NY

Head Teaching Assistant

Aug 2024 - Present

- Delivered individualized and group tutoring to over 100 students per semester in core computer science classes, including Data Structures, Algorithms, Artificial Intelligence, and User Interface design
- Analyzed data from over 500 tutor sessions to generate insights to improve tutoring strategies and focuses

Additional Information

Brazilian Society at Columbia University

New York, NY

President

Aug 2024 - May 2025

- Executed a calendar of over 16 annual events, including networking sessions and workshops with an average of 30 attendees
- Founded and managed a mentorship program, pairing 30 underclassmen with upperclassmen mentors

Languages: Portuguese, Spanish, Chinese

Interests: Cooking, Photography, Volleyball
